

VT-975 Document Visualiser

**Precision You Can See.
Confidence You Can Present.**

Touch Controller

Proper arrangement and functional integration of touch buttons to enhance user convenience.

Ultra HD

Capture every detail in the highest possible resolution, ensuring that no aspect is overlooked.

Adjustable Lighting

The Adjustable Lighting System offers users the flexibility to capture the finest images possible.

Plug N Play

The document scanner provides a user-friendly experience with easy USB connectivity, avoiding complex connections.

High Definition and Realistic Images

Enhanced Imaging Sensor

The Voitto VT-975 model features high-performance CMOS sensors that provide ultra-realistic image quality, setting a benchmark in the industry. With its large image sensor and Voitto's cutting-edge imaging technology, it captures every detail with stunning clarity—resulting in vibrant, true-to-life photos and videos. Whether you're operating in bright daylight or challenging low-light settings, the Voitto VT-975 consistently delivers sharp, high-resolution visuals with outstanding color accuracy.

Multiple Connectivity

Versatile Multimedia Interface

The Voitto VT-975 Document Visualisers feature an extensive array of connectivity options, making them incredibly adaptable and easy to incorporate into any setup. With various input and output ports—including HDMI, VGA, USB, and optional SD card support—these visualisers can effortlessly connect to projectors, interactive flat panels, monitors, laptops, and even external storage devices.

Ultra 4K Resolution

UHD 4K Resolution

The Voitto VT-975 delivers stunning 4K image quality, equipped with a substantial 8 Megapixel Sensor that ensures every detail is captured with vivid colors. Whether you're taking intricate close-up shots or using it for online meetings, this camera enables you to zoom in on fine details, giving students an intimate view of the topics being discussed.

Touch Panel for Source Change

Touch Control Panel

The Voitto VT-975 Document Visualiser Control Panel offers an intuitive and responsive interface designed for seamless classroom and presentation control. Its Touch Panel for source change allows users to instantly switch between inputs with precision and ease. With dedicated buttons for zoom, focus, freeze, and preset functions, the VT-975 ensures smooth operation during live demonstrations.

Why Choose the Voitto VT-975?

When your presentation, teaching or training setup demands exceptional visual clarity, the Voitto VT-975 4K Document Camera stands out. With an 8 MP sensor built on a large 1/2.8-inch format, it delivers superb image quality, rich detail and accurate colour reproduction. Its generous scanning area makes it easy to capture documents, books, maps, artwork or 3D objects in one go — no need to constantly reposition materials. With 4K-ready output and flexible connectivity (HDMI, USB, VGA) plus auto-focus capabilities and intuitive controls, it fits seamlessly into classrooms, boardrooms and online workflows. You'll benefit from elevated engagement through crisp live visuals, smoother zooms and reliable, professional performance. When clarity, size and versatility matter, the VT-975 leads the way.

Compatible With Multiple Video Conferencing Applications

Description

The Voitto VT-975 Document Visualiser is a high-precision presentation tool designed for modern classrooms, boardrooms, and training environments. Its advanced imaging system delivers sharp, vibrant visuals, ensuring documents, books, and objects are displayed with exceptional clarity. With smooth autofocus, powerful zoom, and intelligent image enhancement, the VT-975 captures fine details effortlessly. The foldable, space-efficient design and intuitive control panel make operation simple and efficient for any user. Equipped with versatile connectivity options, it integrates seamlessly into digital and hybrid presentation setups, enabling real-time sharing, recording, and collaboration.

Key Features

- 8 MP high-definition Auto focus lens
- Touch Control Panel
- Easy plug-and-play USB connection
- Scanning speed of just one second
- Adjustable Lighting System for Better Image Projection
- Lens Cover for Better Protection of Camera

Technical Parameters

Model	VT-975
Total pixels	8 million pixels
Type	Desktop
Technology	CMOS
Selectable resolution	4K(3840*2160) , Full HD(1920*1080), HD(1280*720)
Optical zoom	22x optical zoom
Digital zoom	12x digital zoom
Frame Rate	30 FPS
Light source	Two sided Led Lights With light box
Light Type	LED
Input	VGA*1, HDMI*1
Output	VGA x1, HDMI x1, USB x1
Focus	Auto Focus/ Manual
Control Panel	Touch panel
Full Function Remote Control	Yes
Picture scanning format	BMP/JPEG/PNG/TIF
Output Document Format	PDF, Word, PPT, Excel
Video recording format	AVI
Shooting range	A4 format
Digital Function	Support annotation with PC, Screen split, Freeze, Auto focus, Positive/Negative, Text/image mode, Mirror image, Image storage and replay, USB output
Image adjustment	Brightness, contrast, colour, saturation, grayscale, rotation ,etc.
Layout	Landscape & Portrait Both
Exposure/ white balance	Automatic
Power	DC 12V
RS-232 Port	Yes
