

VT-910 Document Visualiser

Think Smart Presentation Solution...
Think Voitto Document Visualiser

Smart PC Software

Comprising features such as autofocus, freeze, mirror, snapshot, recording, annotation, and additional functionalities.

True 4K Ultra HD

Produce sharp, high-definition images with a smooth appearance, utilising a maximum zoom of 100x.

Rotary Knob for Zoom

A uniquely designed Rotary Zoom Knob ensures precise zoom adjustments every time.

Physical Buttons

Zoom-in/out, Brightness (+, -)
Light Source, Auto-Focus
and Source Change

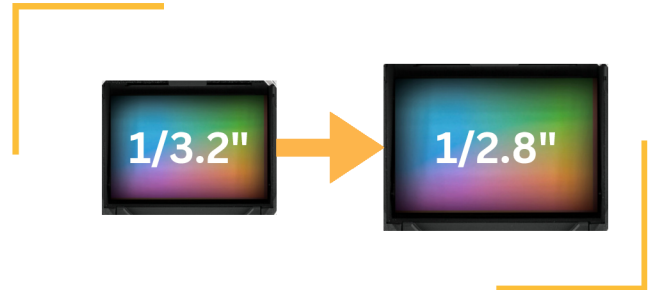

Connectivity

2*USB, 2*VGA, 1*Audio
and 2*HDMI.

High Definition and Realistic Images

Larger Imaging Sensor

The Voitto VT-910 features a larger image sensor that delivers ultra-realistic image quality, setting a benchmark in its category. Thanks to its cutting-edge technology, this sensor captures every detail with exceptional clarity, ensuring your photos and videos are both vibrant and lifelike. Whether you're shooting in bright daylight or dimly lit environments, the Voitto VT-910 performs exceptionally, producing sharp, high-resolution images with remarkable color accuracy.

Broader Capture Area

A3 Shooting Area

The VT-910 offers an expansive field of view thanks to its adjustable camera head, allowing you to capture A3 document sizes. This feature makes it perfect for presentations, educational purposes, and meticulous document archiving. With a high-resolution sensor, it captures every detail with stunning clarity, while the built-in LED lighting ensures consistent illumination even in low-light settings. Equipped with user-friendly software, the VT-910 facilitates seamless integration with a range of devices, making it a versatile tool for both professional and personal applications.

Ultra 4K Resolution

UHD 4K Resolution

The VT-910 delivers stunning 4K image quality, equipped with a substantial 8 Megapixel Sensor that ensures every detail is captured with vivid colors. Whether you're taking intricate close-up shots or using it for online meetings, this camera enables you to zoom in on fine details, giving students an intimate view of the topics being discussed.

With its cutting-edge autofocus technology, your images stay sharp and clear, even amid dynamic movements, making it a perfect choice for both professional and educational environments.

Description

The Voitto VT-910 4K Document Camera delivers stunning clarity with its 8MP camera and large 1/2.8-inch sensor, ensuring sharp, vibrant visuals in any teaching or presentation environment. Its generous A3 scanning size makes it ideal for displaying books, documents, artwork, and 3D objects with ease. Designed for classrooms, boardrooms, and hybrid learning setups, the VT-910 provides smooth, detailed imaging that enhances interaction, improves comprehension, and elevates every session with professional-quality visuals.

Key Features

- 8 MP high-definition Auto focus lens
- Captures images up to A3 size
- Easy plug-and-play USB connection
- Scanning speed of just one second
- Lighting System for Better Image Projection
- Rotary Zoom Knob for greater flexibility

Why Choose the Voitto VT-910?

When your presentation, teaching or training setup demands exceptional visual clarity, the Voitto VT-910 4K Document Camera stands out. With an 8 MP sensor built on a large 1/2.8-inch format, it delivers superb image quality, rich detail and accurate colour reproduction. Its generous A3 scanning area makes it easy to capture documents, books, maps, artwork or 3D objects in one go — no need to constantly reposition materials. With 4K-ready output and flexible connectivity (HDMI, USB, VGA) plus auto-focus capabilities and intuitive controls, it fits seamlessly into classrooms, boardrooms and online workflows. You'll benefit from elevated engagement through crisp live visuals, smoother zooms and reliable, professional performance. When clarity, size and versatility matter, the VT-910 leads the way.

Compatible With Multiple Video Conferencing Applications

Technical Parameters

Model	VT-910 4K
Total pixels	8 million pixels
Imaging Device	1/2.8 inch CMOS
Resolution	4K (3840*2160p), Full HD(1920*1080p),XGA and VGA
Optical Zoom	10x optical Zoom
Digital Zoom	10x Digital Zoom
Frame Rate	30 fps @2160p&1080p
Focus	Auto & Manual
Shooting Area	A3
Shooting Range	Support Multi-angle shooting, close up shooting, the nearest shooting distance is 35cm
Equipment Structure	Foldable support multi angle shooting the lens can be rotated 90 degrees left and right
Input	VGA*1,HDMI*1,Audio*1
Output	VGA*1,HDMI*1,Audio*1,USB 2.0*1
Auxiliary Lighting	LED Lights
Microphone	Internal and External Audio
USB Mouse	Yes
Aperture	Auto
White Balance	Auto
Image Processing	Colour/Black & White, Positive/Negative, Mirror, Text/Image, Brightness Adjustment, Image Freeze, Zoom In/Out
Remote Control	Yes
Operating Voltage	12V DC
Weight	2.8 KG (N.W)
